Individual Contribution Statement - Student C

Course: Information Security 2026-2027 **Class:** **Group: Name:** **Student ID: Primary responsibility:** Database security, testing and audit logging

> TEMPLATE - every field in angle brackets must be completed truthfully by the member. Do not list commits, hours or decisions that did not happen; the instructor may check the repository history.

1. Tasks completed

Primary area (files / report sections):

- database/schema.sql (grants, triggers, append-only hash-chained audit log)
- database/init/00-create-roles.sh, docker-compose.yml
- source/app/audit.py
- tests/ (44 automated tests, evidence generation, screenshots)
- Test plan and results (Section 7)

Details of what I did myself:

- <task 1>
- <task 2>

2. Repository commits

Paste the output of `git log --author="<your git name>" --oneline` (commit hash and message):

Commit	Date	Message

3. Technical decisions made

- <decision, alternatives considered, reason>

4. Problems solved

- <problem -> how it was diagnosed and fixed>

5. Approximate hours worked

hours ()

6. Contributions of the other members

- : <what he/she contributed>
- : <what he/she contributed>

7. Review of the complete submission

I reviewed the complete submission (source code, database scripts, tests, evidence, report) on .
